LONG PULL AND

Wall Street Operators Making United Effort for an Advance in Prices.

MONEY MARKET EASY AGAIN

ACTIVE DEMAND FOR COMMER-CIAL PAPER.

New York, Jan. 9 .- The speculation for the advance took on considerable animation today. Dealings expanded decidedly in volume, and professional operations to lift prices were conducted with boldness and aggressiveness. The misgivings which caused the setback of yesterday had been apparently overcome. The pronounced improvement in the money situation was held to be of sufficient value to overweigh the counter considerations. An effective factor in soothing the apprehension caused by yesterday's news of the receivership for the Chicago Great Western was the dissemination of reports in detail, and particularly of provision having been made for meeting the coming maturities of note issues of a rumber of railroads now of first-

Efforts to obtain official information for these reports were of no avail, and they were left in the form of intima-Their influence on speculative sentiment was none the less decisive, although the stocks of the particular companies thus supposed to have been relieved did not always share in the strength of the day's market. Some of the other factors in the day's rise were similarly of a yet undefined kind. The coalers, for instance, rose vigorously, buyers professing confidence that action would be taken by congress to defer the operation of the Hepburn bill requiring the railroads to divest themselves of ownership of the coal prop-

The operation of this requirement had been much dreaded as threatening as an extreme effect, a possible total suspension of business by these companies. Speculation on this ground centered in Reading, and carried that stock to the highest price it has touched since August. On the side of the money market

there were many convincing evidences of the effective rehabilitation already effected there. So active a demand for commercial paper has sprung up per cent; closing bid, 5 per cent; offered amongst money lenders that uneasiness has subsided and no fears are any longer felt of embarrassment for any solvent business. Increasing offerings of time funds were reported at declining interest rates, while borrowers were reported to show growing disposition to hold off for still lower rates. sition to hold off for still lower rates. The Bank of France reduced its official discount rate to the level prevailing before the crisis, and the Bank of Eng- lar. land made so strong a weekly return that some surprise was felt in London that a further reduction was not made in the official discount rate of that institution. Enormous repayments of credits were reported by both of these government controlled establishments. while the heavy reduction of government deposits in both explained the increase of supplies in the money market by government disbursements. The English bank gained heavily also in bullion holdings, although the French bank reported a small decrease in gold. Call loans were not quoted higher than by per cent here, and yielded from that rate, thus indicating the increase of facilities available for the conduct of

sreculative operations in the market. The radical cut in the rate of the country's iron production reported by the leading trade organs and further returns of large decreases in railroad earnings were ignored. The market broadened and showed increasing strength during the day, and closed strong and animated with gains fully maintained.

Bonds were irregular. Total sales, par value, \$4,622,000. United States 2s, registered, declined 1/8, while the 4s, coupon, advanced 1/4 per cent on call.

GRAIN AND PROVISIONS.

Chicago, Jan. 9.—The wheat market opened strong because of buying by shorts which was based on an advance at Liverpool notwithstanding the decline here the previous session. Sentiment in the pit continued bullish the entire day, the market acquiring fresh strength late in the session as a result of the cash grain and export business. Reports from the seaboard claimed that fifty boatloads had been worked today for export, while advices from the principal grain centers of this country showed material gains in the price of cash wheat. Recuperation of the stock market also stimulated demand for wheat. The close was strong. May opened 10% to 50% higher, at 1.05% and then advanced to 1.06% and closed at 1.06%. The corn market was rather weak early in the day owing to selling induced by reports that country dealers were selling corn more freely. A forecast for warmer weather tomorrow and the bulge in wheat, however, caused a rally during the last half of the session. The close was firm. May opened 1/2 lower to 1/4 higher, at 60% to 61% sold off to 60% 60%. Trade in oats was extremely quiet. There was a good demand for cash oats, but business at the same tables was restricted owing to scarcity of offerings. May oats opened 1/2 higher, at 54%, sold off to 54%54% and closed at 54% 654%. Provisions displayed considerable strength, but the volume of business was not large. A 5-cent advance in the price of live hogs brought out moderate demand from shorts. At the close May pork was up 71/200; lard was 5 cents higher, and ribs were 5 cents higher, and ribs were 5 cents higher. The leading futures ranged as follows:

not only stops the cough but heals and strengthens the lungs and prevents serious results from a cold. Contains no opiates.

Be Sure You Get Foley's

There are substitutes made to sell on the good name of Foley's Honey and Tar. Beware of them. You should have confidence in a cough cure that has been sold with universal satisfaction for thirty-five years. The genuine Foley's Honey and Tar is in a yellow Package. See that you get it.

A Mother Testifies This is to certify that my daughter was down for almost one year with a cold. The doctors finally pronounced it consumption. We had given up hope for her recovery. I was given a sample bottle of Foley's Honey and Tar. I gave it all to her in about three hours. It stopped the cough, and gave her rest. I sent next day and bought a 5oc. bottle and began giving it. In three month's time she was well. There can not be too much said in favor of Foley's Honey and Tar. It saved my Mrs. George Batson, Fountain Grove, Mo. child's life.

Three sizes - 25c, 50c and \$1.00. The 50-cent size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

SOLD AND RECOMMENDED BY

THE F. J. HILL DRUG CO., "The Never Substitutors."

The Purity of American Beer

In all the discussion that has prevailed since the pure food agitation began, not a word has ever been said about impure beer. The purity of American beer has at all times remained above suspicion.

Isn't that an interesting fact?

And while speaking of the purity of American beers in general, we call

This beer is brewed strictly in compliance with the pure food law. There is no brewery in the country that takes more pains, or goes to greater expense to put forth an absolutely pure and wholesome product. And in taste and aroma we claim our beer is unequaled.

Look for our signs and call for Fisher beer.
